

SUPPLIER OF COMMERCIAL REFRIGERATION,
LAUNDRY AND CATERING EQUIPMENT

VESTFROST

SOLUTIONS

MANUFACTURER OF COMMERCIAL STORAGE,
DISPLAY, WINE & MEDICAL REFRIGERATION

Vestfrost develop, produce and supply – reliably and efficiently – commercially optimized refrigeration and freezing solutions for their customers on the global professional market.

High environmental standards have always been a cornerstone at Vestfrost Solutions. They employ numerous initiatives to reduce costs of product usage and to minimize environmental impact.

This is valuable to their customers, who can sleep with a clear conscience, knowing that they buy sustainable, clean refrigerators and freezers from a responsible partner.

LOW ENERGY PRODUCTS = LOW OPERATING COSTS

Unlike other electrical equipment, refrigerators and freezers are always in use and never unplugged. This makes energy efficiency that much more essential – especially when considering global focus on sustainability and rising electricity rates.

Vestfrost Solutions' eco-friendly and energy efficient product portfolio have limited impact on the environment. Furthermore, their customers will benefit from low operating costs compared to market standards.

LONG PRODUCT LIFETIME = BETTER LONG-TERM INVESTMENT

They have several stories from satisfied customers pleased with their 15-20 year old Vestfrost Solutions products, which are still going strong. A refrigerator or freezer made by Vestfrost is not just quality equipment, it is an investment for years.

A longer product lifetime gives you not only better value for money - the environmental impact is further significantly reduced due to lesser need of disposal of goods.

QUALITYTESTED = READY FOR PROFESSIONALS

It's the small things that determine great quality. Did you know that all Vestfrost hinges are tested to open and close 400,000 times? Or the fact, that their products undergo climatic testing in high-tech facilities to be able to perform consistently in all regions of the world? Just a few examples of how they work to deliver the best products for their customers. Vestfrost Solutions are ISO 9001, 14001 and OHSAS 18001 certified giving you full assurance that their products are produced consistently in highest quality and with respect to their employees and the environment.

USABILITY

Vestfrost Solutions' products feature great usability and require limited or zero installation, ready to plug-in when delivered! The reliable and user-friendly solutions give you the freedom to focus on your core business. Just the way it should be.

Commercial Chest Freezers

SZ RANGE

FEATURES:

- Energy efficiency class: B
- Refrigerant: R600a
- Power supply: 13 amp plug
- Skin condenser
- 50mm insulation
- Galvanised steel construction
- Laminated counter-balanced lid
- Fast-freeze function
- Handle with lock security
- Internal lighting
- Digital temperature display
- Next day delivery available

SUPPLIER OF COMMERCIAL REFRIGERATION,
LAUNDRY AND CATERING EQUIPMENT

Delivery Information

Next day delivery available to 98% UK postcodes

Every unit sent on a 2 man service. There is no need for your customer to choose between fast delivery and the additional services they require

Unpacks and positions get the unit to the location it needs to be even when that is upstairs

The best value like for like disposals in the industry

2 hour ETA timeslots and online tracking. No need for your customer to wait in all day

Evening timeslots now available. Popular with takeaways and late night venues. A 6-9pm delivery slot means they don't have to get to site earlier than they would like to.

AM deliveries from 7am to help customers who start and finish their day early
