

CUBER, SELF CONTAINED IM-30CWNE

Product series: IM

Item number: E1FA-D002

This Hoshizaki IM-30CWNE is a self-contained cube ice maker producing up to 32 kg of high-quality cube ice per 24 hours. Meeting even the strictest hygiene requirements, this true allrounder offers many application possibilities in segments including the foodservice and medical sector.

All Cubers are equipped with an electronic control system. This ensures an optimized ice-making process, even under varying circumstances. Without additional manual assistance or adjustments required, our Cubers produce generous amounts of ice cubes, at a consistently high quality.

The IM-30CWNE uses refrigerant R134a.

Material

The exterior is made of stainless steel. The closed water circuit provides maximum protection against any type of contamination during the entire cubing process. All Hoshizaki machines are easy to use, clean, and maintain.

Unique Technology

A dedicated jet of fresh water is injected into each of the closed cells. Excess water leaves the closed cell through a set of outlets. The cell walls block the freezing water's expansion from all sides while reaching down to -30°C during the cubing process. Thanks to the automatic rinse cycles, impurities such as minerals, are eliminated from the water resulting in the purest ice possible while your machine is protected from calcification and mineral build-up.

Smart Design

Like all Hoshizaki Ice makers, the IM-30CWNE is designed to last and comes with smart design extras such as a magnetic water pump without direct coupling. This element prevents leakage from the water circuit and improves the life expectancy of the machine.

Perfect Fit

With outside dimensions W x D x H of 398 x 451 x 695 mm, the IM-30CWNE is compact and is a perfect fit for small spaces.

Plug&Play

The smart plug-and-play design guarantees an easy and quick set-up.

SPECIFICATIONS

| | |
|--------------------------------------|-----------------------|
| Product title | Cuber, Self Contained |
| Production capacity (kg/24h) approx. | 32 |
| Storage bin capacity (kg) approx. | 11.5 |
| Electric connection | 1/220 - 240V/50Hz |
| Electric consumption (kW) | 0.19 |
| Outside dimensions W x D x H (mm) | 398 x 451 x 695 |
| Ice type | L Cube - standard |

| | |
|--------------------------|----------------|
| Refrigerant | R134a |
| CO2 equivalent (kg) | 229 |
| Cooling system | Water Cooled |
| Product configuration | Self Contained |
| Net weight (kg) | 35 |
| Gross Weight Packed (kg) | 41 |
